

Audi RS Q E-tron Dakar racer revealed

A few months ago Audi announced that it would be tackling the 2022 Dakar Rally. After success on the world rally stages, and more recent dominance at the 24 Hours of Le Mans, the German automaker has decided to combine the off-road and endurance disciplines for a new challenge. The Audi Dakar RS Q E-Tron has been revealed to the world.

Audi has set itself the aim of becoming the first car manufacturer to use an electrified drivetrain to capture overall victory in the world's toughest rally.
