

# The New York Festivals AME Report is out

New York Festivals AME Awards has released the 2021 AME Report, a two-tiered ranking report of the world's most successful agencies and brands according to their achievements in the 2021 AME Awards.

Image supplied

The AME Agency Report honours agencies who have produced cutting-edge and measurably effective creative work on behalf of prominent advertisers. The AME Brand Report recognises innovative brands for their game-changing campaigns and the brave advertisers who approved these compelling campaigns. All 2021 AME winners determined by the Grand Jury are parsed in the AME annual rankings brief.

2021's award-winning campaigns demonstrated a wide spectrum of strategies to improve brand relevance, create engagement, and deliver results. Agencies earning a slot on the AME Report utilised strategic brand partnerships, cause marketing, co-branding, gamification, data-driven marketing, branded entertainment, digital and immersive event marketing, AI, and technology-based engagement to position global brands and achieve growth.

New York Festivals Advertising Awards open entries

2 Dec 2021

Zulu Alpha Kilo Canada took the lead with the number one spot on the Agency Report earning the highest number of points for their innovative and results-driven work for multiple clients including HomeEquity Bank, Amazon Rainforest Conservancy, Subaru Canada, and Goldfish Crackers.

"To be recognised for not only the creativity of your work but its actual effectiveness is why we're all in this business. We are absolutely honoured and thrilled to be recognised. We're thankful to our entire team at Zulu and our amazing client partners who have continued to support creativity during this crazy pandemic year," said Zak Mroueh, founder and CCO, Zulu Alpha Kilo Canada.
