SME South Africa has launched an e-commerce platform to help business owners purchase the tech tools and business solutions they need to grow their businesses. The new launch, called [SME Solutions](#), forms part of SME South Africa's mission to increase technology use among SMEs.

Technology and business growth

One of the biggest challenges facing SME owners in SME South Africa is sourcing the right technology. This is according to the

Many business owners find the buying process daunting, especially if they don't have any guidance. Unsurprisingly, South African SMEs are not making use of technology at levels that they should be. Business owners are missing out on the major benefits offered by digital technology and connectivity, such as access to new markets, reduced business costs, and improved efficiency and competitiveness. This has been exacerbated by the Covid-19 crisis which has accelerated digital adoption, making it more urgent that SMEs make use of tech if they are to keep up and survive.
