Working collaboratively to build back stronger

Said Momentum Metropolitan Staff Volunteer Programme (SVP) specialist Patronella Sono: "The purpose of Momentum Metropolitan's Staff Volunteer Programme is to engage our greatest resource – our employees – to make a significant impact in South Africa's communities. The NPO Challenge was a fantastic opportunity to utilise the skillsets at our disposal to collaboratively help those organisations working to do good to solve a pressing business problem.

“Following the pandemic and the other multiple hurdles we’ve faced over the past few decades, our country is in dire need. However, there are also a lot of people who care, and who want to make a difference. To build back, and stronger, we need to do it together.”
