

Cellphone company launches BlackBerry in Tanzania

Research In Motion (RIM), a designer, manufacturer and marketer of wireless solutions, and Vodacom Tanzania, have announced that the BlackBerry solution is now available to Vodacom Tanzania subscribers throughout the country. The BlackBerry solution is designed to bring together innovative smartphones, software and services to allow easy access to email (including attachment viewing), phone, messaging, organiser, web, multimedia and many other business and lifestyle applications for people on the move. For further details on options and costs go to [the company website](#) or contact your [nearest dealer](#).
