Houdt launches MacBook cover range

Houdt, the unique accessory brand, has announced the launch of its exclusive 2016 MacBook cover range. Inspired by the functional beauty of nature, the Houdt MacBook Cover range is designed to protect the top of your MacBook from everyday spills, bangs, bumps and scratches.

The range is available in 11", 12", 13", and 15" with retina and non-retina displays. There are three nature-inspired wood variants: Bamboo, Cherrywood, and Walnut. These locally produced covers are available from R449 online at www.houdt.co.za or at selected iFix stores.

Houdt will also be offering customised engraving for your device, which will be available in various options soon.
