

FutureLife partners with Dis-Chem Foundation and Hope worldwide SA to feed children in KZN, Gauteng

FutureLife has joined hands with the Dis-Chem Foundation and Hope worldwide SA to donate and distribute 200,000 nutritious meals to children affected by the recent civil unrest in both Kwa-Zulu Natal and Gauteng.

FutureLife managing director Mark Bunn called on South Africans to contribute as little as R50 to this initiative. FutureLife will, in turn, match every single donation made.

Those interested in getting involved can donate either via EFT or [Zapper](#) directly to Hope worldwide SA.
