

Personal shoppers at Menlyn Park

The services of two highly experienced personal shoppers are now available to all customers at the Menlyn Park Shopping Centre in Pretoria, ensuring a tailor-made shopping experience.

Menlyn Park Shopping Centre has made it very easy to have access to this unique service. All you need to do is contact the Menlyn Park Shopping centre. Your booking will be scheduled at your convenience and your consultation will be held at the centre management's offices, where your journey to a new definitive wardrobe will begin.

Personal shopper Alexis Tshangana has worked with celebrities such as Pearl Thusi, Unathi Msengana, and Amanda Dupont. "I'm able to give my clients the same star treatment and latest offerings in fashion that are worn by these A-listers," she said. And with 10 years of experience under her belt, personal shopper Darlene Bayley knows how to create the ultimate wardrobe that resonates with an individual's unique style.

South Africa's administrative capital is home to over 170 embassies and consulates – the second-highest concentration of these institutions in the world, after Washington DC. Pretoria also has the fastest growing GDP in the country, and one of South Africa's youngest populations. With these busy people in mind, Menlyn Park offers customers a private consultation with one of two highly experienced personal shoppers in order to best take advantage of the 275 stores and brands available at the centre.

Expansion and refurbishment project

The Menlyn Park Shopping Centre will become Africa's largest shopping centre with its R2bn expansion and refurbishment project. This will add an additional 50,000m² of retail space and 200 more stores. Menlyn Park has added the personal shopper service to complement the new and improved mall.

“Giving our customers the opportunity to benefit from the expertise and knowledge from our personal shoppers is just another way we strive to make Menlyn Park Shopping Centre a cut above the rest,” said Andrea de Wit, marketing manager of the centre.
