

Checkers expands its Petshop Science store network

Checkers, the first South African supermarket to launch a pet shop, has opened its 10th Petshop Science store within the last seven months and expects to open 12 standalone stores by the end of the year.

This is in addition to the opening of the first standalone Checkers Little Me baby store, the smaller format Checkers Foods store and the new MediRite Plus store.

Petshop Science stores offer every pet product owners could possibly need at supermarket prices.
