

New fleet, transport conference, exhibition

The first Fleettech Conference and Exhibition, organised by Trade Conferences International, will take place on 11-12 August 2010 at Emperors Palace. Tracker and Digit Vehicle Tracking will sponsor the event, which is endorsed by Vehicle Security Association (VESA).

Ryno van Ellewee, MD of Trade Conferences International said, "The event will allow both exhibitors and delegates an opportunity to network and explore new developments in the fleet industry."

Conference line-up

By attending the conference, delegates will be able to network with suppliers and other industry players, learn about new developments in the fleet and tracking industry. Delegates that would benefit from attending the conference include fleet owners, logistics managers, fleet maintenance managers, operations managers, vehicle tracking managers, retailers, fleet analysts and transport managers.

Topics to be addressed include managing driving behaviour, route planning, fuel management, tracking, data intelligence, fleet software solutions and asset recovery. Speakers, representing top technology companies dealing with fleet management, include:

- Brendan Horan, Mix Telematics;
- Roz de Nobili, Transnetix;
- Charel Schickerling, Cargoware;
- Hein Crocker, Dreamworks Technologies
- Clinton Beinart, AFS Group

Exhibition

The conference will be held in conjunction with an exhibition, which will include exhibitors from telemetry, fuel saving technology, fleet management software, satellite navigation, vehicle identification technology and biometrics technology. These include such companies as:

- Mix Telematics
- OPSI Systems
- Africa Tracking Solutions
- Altech Netstar
- Digit Vehicle Tracking

- AkhaTech
- VSC Solutions
