Purchasing a new vehicle can be quite an emotional decision fraught with lots of research and decision making. Once you've purchased your new car, however, it's always fun to accessorise to make your journey even smoother. Here are the five most popular car accessories you can buy easily online:

## 1. Boot organiser

This useful organising caddy is easy to set up and use. You simply pop it in your boot area (most do come with a carabiner hook to secure to an area in your boot to prevent sliding). A great option for keeping things organised in your boot, from kids' sports equipment to art and hobby supplies, and is really great for groceries.

## 2. Hanging car diffuser

We all hate that stuffy stale smell that can arise in our cars. A really easy way to keep your car smelling fresh is to hang a car diffuser on your dashboard or from your rearview mirror. Top up your diffuser with a variety of essential oil scents for a long-lasting solution. You can use any essential oil that you enjoy in car diffusers, just make sure that it isn't too relaxing, you need to be alert when driving!

## 3. Car hooks

We all experience the problem of climbing into a car and not knowing what to do with our bags or packets. We end up putting them on the floor – only to discover later that the kids have stepped on them or they have fallen over and all the contents have dropped out. A really cool solution to keeping your car interior neat and tidy, and your belongings clean and off the floor are these nifty car hooks.
