

# Clover visitor's booking site *live!*

Issued by [Bluegrass Digital](#)

29 Nov 2016

Clover Industries recently launched its new visitors centre, with aims of providing an educational experience to its visitors by bringing the story of dairy and of Clover to life. Bluegrass Digital built the Clover Visitor's Centre booking website on WordPress.

The booking for educational and/or corporate prospective tourists can be conducted at a click of a button! The interactive [calendar](#) has been embedded on the page where visitors can complete a visitor request form via the Clover Visitor's Centre website and download the required documents.

A notification e-mail will be sent to the requester to confirm that the request has been submitted, and the requester will have the option to cancel the booking if need be. Once the booking date has been actioned, the calendar will be updated from 'tentative booking' to 'booked'.

The visitor will receive a notification with the status of the request (booked/cancelled). If the visitor request has been booked, the requester will receive an e-mail with a link to cancel the booking if they wish to do so.

The site keeps you informed on the status of the enquiry, booking or cancellation.

## About Bluegrass Digital

Bluegrass Digital is a leading provider of creative technological solutions and digital production services for mobile, web and social platforms. With offices in London, Cape Town, Johannesburg and Lagos, our highly-skilled team offers a diverse pool of knowledge and expertise, bringing together creativity and innovative technology that delivers top-notch results for our clients.

Our expert knowledge in creative technology and development means that we are able to deliver a unique offering, centred on service delivery excellence. Bluegrass has a proven track record of delivering high-quality projects on time and within budget.
