

Mpact's circular economy process: Our purpose goes beyond producing packaging

Issued by [Mpact](#)

16 Jul 2019

By viewing our brand new corporate profile on [YouTube](#) we share our circular economy process with you. Our investment in technology offers you the opportunity to be the change, placing you right next to us in our 50-year-old recycling journey.

Our circular economy process enables us to produce, recycle and re-produce packaging products, using majority of raw materials repeatedly. As a result, most of our paper and an increasing percentage of plastic products are produced from recycled material. By understanding our process and making your contribution to recycling, you can be part of the team that provides smarter, sustainable solutions. Help us close the loop, right here in South Africa!

About Mpact Plastics

Mpact is a leading producer of rigid plastic packaging and cling film, producing a range of packaging and serving a multitude of blue-chip customers within various industries, including products for the food, beverage, personal care, homecare, pharmaceutical, agricultural, industrial and retail markets.

info@mpact.co.za | www.mpact.co.za

Mpact Plastics is a leading producer of rigid plastic packaging and cling film in southern Africa. We operate out of nine production centres across the country, providing packaging from plants with relevant certifications. We service the food, beverage, personal care, home care, pharmaceutical, agricultural and retail markets. In upholding company values, and as a supporter of the circular economy, we positively contribute to industry associations, enabling various communities to participate in recycling solutions.
