

# Coding made simple

Issued by [Pyrotec](#)

26 Jul 2019

Markem-Imaje's 9000 Series of small character inkjet coders are full-feature printers that are designed for demanding manufacturing environments, general purpose, and very specific applications, such as high-contrast and high-performance marking. Markets for these coders include food, beverage, cosmetics, toiletries, electrical equipment, electronics, cables, tubes and profiles.

The consumables for the 9000 Series are designed to print on all types of substrates (plastics, glass, metal, cardboard and directly onto food) from standard to specific applications, including food grade, sterilisation, UV cure and egg coding to name a few. They are also available in a wide variety of colours, and a choice of alcohol-based, water-based, ketone-free and MEK-free inks.

## **Markem-Imaje's small character inkjet 9029**

Between manufacturing and selling your products, you have more important things to worry about than ensuring the quality of your code.

Engineered to bring you the innovation you deserve with the simplicity you require, the Markem-Imaje 9029 facilitates daily operations that save you time.

Key benefits include:

- Ease of installation.
- The 9029 can be moved anywhere you need it thanks to its robust IP55 fully stainless-steel design.
- Messages are easy to design.
- Creating and uploading codes is quick thanks to its user interface and USB connection.
- The 9029 is easy to run and smart to operate. The M6's all-in-one ink circuit runs for approximately 6,000 hours, and the time it takes to change consumables is fully optimised. Changeover takes less than six minutes and no additional maintenance is needed.
- This coder's intuitive online guide makes managing daily coding highly efficient.

Print features include up to four lines of print at a speed of 4.4m/s, and font heights from 5 to 24 dots. Character heights range from 1.8 to 8.7mm with a choice of characters that includes Latin, Arabic, Cyrillic, Greek, Japanese, Chinese, Hebrew and Korean. The message library stores up to 100 messages, and the WYSIWYG backlit blue screen offers an international operator interface with a choice of 31 languages.

## **About Pyrotec**

Pyrotec is a privately owned South African company that specialises in providing innovative, top-quality product identification solutions. The company's extensive service offering includes on-pack product identification solutions – including self-adhesive label systems, coding and labelling equipment – as well as financing, and cloud-based brand protection, track and trace and consumer engagement services. Founded on a dedication to quality, operational reliability and excellent service, the Cape Town-based company has a national footprint with centres in major cities across the country. With more than 50 years' experience, Pyrotec has two brands operating under its ambit: Pyrotec PackMedia, which includes Pyrotec PackVerifi; and Pyrotec PackMark, including Pyrotec Finance. This proudly independent company is headed up by managing director, Rowan Beattie. For more information, visit [www.packmark.co.za](http://www.packmark.co.za).

## About Markem-Imaje

Markem-Imaje, a wholly owned subsidiary of the US-based Dover Corporation is a trusted world manufacturer of product identification and traceability solutions, offering a full line of reliable and innovative inkjet, thermal transfer, laser, and print and apply label systems. Markem-Imaje provides global reach to over 50,000 customers with 30 subsidiaries, technology six centres, several equipment repair centres and manufacturing plants with the most comprehensive marking and coding portfolio available in the marketplace. For more information, visit [www.markem-imaje.com](http://www.markem-imaje.com).
