

Anusol Ointment for internal and external piles

Issued by [ACDOCO SA](#)

6 May 2021

Anusol™ is the UK's number-one-selling piles treatment* providing multiple formats and categories to cover different therapeutic needs and consumer preferences. Anusol Ointment offers treatment for both internal and external piles (haemorrhoids).

Anusol Ointment offers dual application. It comes with a screw-on applicator (a nozzle with a hygienic cap) to effectively treat internal piles. The ointment offers sufferers an over-the-counter triple-action solution to relieve the pain and discomfort of both internal and external piles. The formulation reduces swelling, soothes itching and eases the passage of stools. Anusol Ointment not only relieves the discomfort of the affected area but soothes the surrounding skin too. The ointment can be applied directly to the affected area as often as needed.

The Anusol range has a full category solution that includes hygienic flushable wipes, ointment and suppositories.

Anusol is available at pharmacies, Takealot, Dis-Chem and Clicks. Visit [acdoco.co.za/buyanusol](https://www.acdoco.co.za/buyanusol) to buy online or find your nearest store.
