Issued by [Heineken Beverages](#)

1 Feb 2023

*Savanna Premium Cider launches a new 0.0% alcohol-free variant to stay Drier than Dry this summer*

South Ahh's most loved premium cider is back as the official-drink-of-officially-not-drinking, with the new Savanna Alc Free 0.0%. Launched with the same crisp, dry taste but less than 0.05% ABV, it is officially the driest alcohol-free drink around.

Savanna Alc Free 0.0% is same-same but different, like a bunny chow and a kota, like pap and porridge, like Gqom and Amapiano. Just ask SA comedian Schalk Bezuidenhout in the new campaign launching on 1 February 2023. Siyavanna SA, we get you!

Savanna fans are big supporters of annual social practices like 'Dry January' and 'Oct-Sober', we want to meet them where they're at, and give them what they want. This new Savanna Alc Free 0.0% variant is the perfect drink for all seasons and occasions.

"How is Savanna Alc Free 0.0% created, you ask? We use the same method when making Savanna Dry, then the cider is de-alcoholised to less than 0.05% ABV, to deliver the same crisp, dry taste, and premium quality Savanna that you know

and love,” says Eugene Lenford, marketing manager: Savanna Cider – Distell.

Savanna Alc Free 0.0% is available nationwide in the iconic premium 330ml bottle, clearly labelled and fully compliant with South African legislation for alcohol-free products. Savanna supports moderation and responsible consumption, and all promotion of the new Savanna Alc Free 0.0% variant is in line with the code set out by the Association for Alcohol Responsibility and Education.

Savanna Alc Free 0.0%. Same crisp, dry taste but alcohol free.
