

Designing Smart Cities

Issued by [Topco Media](#)

16 Mar 2012

By 2050 more than 80% of South Africa's population will live in cities. The challenges presented by the rapid population growth demand that cities transform.

The Smart Cities Summit in Durban, June 6-8 will be the most future-focused event on urban planning in Africa. It is a space where public sector problems will meet innovation and solutions. The three-day event, endorsed by the Department of Environmental Affairs, covers every facet of modern city management. Be part of the future. All the speaker's slots have already been taken. There is limited exhibition space and seats are running out fast. If you want to book get hold of Inge on 086 000 9590, inge.rix@topco.co.za or visit the website www.smartcities-africa.co.za.
