Scan Display now offers the convenience of online shopping

Issued by Scan Display   21 May 2012

Exhibition and display specialist, Scan Display, launched its online shopping platform this month. Visitors to the website can now browse available products at their leisure, view the cost, and place an order through a simple process of three steps. Payment can be made by credit card or EFT.

Says Justin Hawes, MD of Scan: "At Scan we are constantly seeking ways to assist our clients, and we believe that because more and more business is being done online it makes sense to offer our products in this way."

The online shop does not include the design of exhibition stands, as successful designs entail detailed briefs which are better done in person. However it does include Scan's portable stand options, such as the Premier and Expo ranges, as well as pull-up banners, counters, showcases, brochure stands and poster display solutions.
The shopping process integrates seamlessly with a courier service, providing an instant cost to courier option for the client to consider. Alternatively collections can be made from Scan's production facility in Newtown.

To view the online shop, please go to www.scandisplay.co.za.

For more details on Scan's online shop or product range, please contact Justin on +27 11 447 4777 or justin@scandisplay.co.za.
