Local companies are increasingly making use of technology to offer their clients a more pleasant experience and better service. With smartphones becoming a part of everyday life, some local companies have created applications for their customers' convenience.

eTV's Tech Report has chosen their favourites - one app which could definitely come in handy is the official Gautrain app. It's everything you need to know about the Gautrain. You can find your nearest Gautrain station and bus stop, view peak and off peak timetables and work out your estimated trip-, parking- & bus fares.

With this app you will never miss your ride!
