

Wetpaint FM lands international accounts

Issued by [Wetpaint Advertising](#)

1 Oct 2012

September 2012, Wetpaint FM launches international radio campaigns. This significant new development confirms that, since inception, Wetpaint FM has shown growth beyond expectations.

Beginning with work done for an existing client, our Qualcomm Snapdragon radio campaign has been utilised in the US as well as becoming the official voice over of the Augmented reality advert being used worldwide. Confirming that the scripting, recording quality, and voice talents offered by Wetpaint FM compete comfortably with standards offered anywhere in the world.

A further radio campaign for MedAlliesWorld is in the pipeline.

Conceptualised, scripted, and recorded by Wetpaint FM using our exclusive voice talents; this series of adverts will be aired across the US, as well as locally. MedAlliesWorld is a premier partner for healthcare providers, health products manufacturers, suppliers, distributors and consumers worldwide; and a significant new international account for Wetpaint.

And last, but certainly not least, is our recent campaign for 2rabbits. 2rabbits is a Zambian manufacturer and distributor of high quality corporate gifts; and the radio campaign will be aired on radio stations across Zambia.

In our modern globalised economy clients can be sourced from literally anywhere in the world.

Business relationships can be nurtured and managed regardless of geographical distance and the only concern is service standards, chemistry, pricing, and most importantly, quality.

Contact Wetpaint FM today to find out how we can help get your business on the air.
