Dis-Chem, which runs the second-largest chain of pharmacies in South Africa by store count, said revenue for the 1 September to 5 February period rose 8.7%, excluding Covid-related sales.

With the pandemic easing and people back in offices and attending events, consumers are also spending on beauty products instead of just medicines.

Dis-Chem said it experienced a strong recovery in the beauty category, helping boost retail revenue by 3.2%, while wholesale revenue rose by 8.6% for the 1 September to 5 February period.

The company's early investment in generators has resulted in minimal disruption during rolling power cuts. Its diesel expenses rose by 54% to R36m for the period.

Eskom is implementing the worst rolling blackouts on record, leaving households in the dark for up to 10 hours a day, disrupting manufacturing and hurting businesses.

Dis-Chem, which competes with Clicks Group Ltd, will release its annual results on 19 May.
