This event forms part of The Ballito Pro festival programme, which is running alongside the surfing contest, taking place at KwaDukuza from 29 June to 10 July.

"We're really stoked to be holding The Ballito Pro Skate Jam again this year - it was a huge hit when we hosted it for the first time in December 2021 and we really feel it's going to be a set fixture of The Ballito Pro, growing massively in the years to come," said Paul Canning, event organiser. "It's a big drawcard and a real hit among the local kids who skate the Ballito Bowl. They really put everything on the line in that U16 division. In the pro division, we're expecting some of South Africa's top skaters to make an appearance, which is great inspiration for the groms, and great viewing for spectators."
