

See: New, facelifted Mercedes-Benz Vito

Mercedes-Benz has revealed its updated Vito model range in South Africa, packed with value-adding enhancements on both the interior and exterior. On the inside, the new Vito features a comfortable cabin, a range of infotainment systems as well as enhanced safety and assistance systems. The model also offers a new optional Active Brake Assist that can detect the risk of a collision with a vehicle driving ahead, and initially gives a visual and acoustic warning. See the gallery below.

The latest iteration of the Vito is locally available in Panel Van, Tourer and Mixto guise, priced from R 573,041. [Click here](#) to learn more about the new Mercedes-Benz Vito range.
