25 May 2018

The Volvo XC60 has quietly arrived in South Africa and we have pricing and some details for this new SUV.

The Volvo XC60 will be pitched competitively against key rivals – the Audi Q5, BMW X3, Jaguar F-Pace, Lexus NX, Mercedes-Benz GLC and Porsche Macan.

It arrives in SA on the back of a World Car of the Year 2018 victory. "Of the 3 finalists, the new XC60 was my preferred candidate for the overall win," comments Cars.co.za consumer experience manager Hannes Oosthuizen. "It probably is the best example of all that is good about Volvo at the moment – great design inside and out, quality finishes and a strong performance/efficiency balance, without sacrificing the practicality and safety aspects the brand is so famous for."
