The R1.2bn project affects the Umzimvubu Local Municipality and Ntabankulu Local Municipality, both within the Alfred Nzo District Municipality.

The scope of works on the project will include:

- Rehabilitation of the existing carriageway pavement structure,
- Widening of the existing road cross-section for introduction of climbing lanes,
- Construction of one new bridge and three new major culverts,
- Widening of five bridges and four major culverts,
- Construction of a pedestrian bridge at Phakade,
- Upgrading of intersections to include sheltered right-turning lanes, left turning lanes, and adequate stacking distances,
- Construction of pedestrian walkways, and
- Construction of community service roads.

Joburg Roads Agency CEO fired

15 Jun 2023

“Over 75 SMMEs will be subcontracted on this contract, with around 600 job opportunities to be created. A minimum of

30% of the contract value will be subcontracted to SMMEs,” said Sanral Southern Region manager Mbulelo Peterson.

SMMEs subcontracted on the project will be handling civil works, fencing, supply of goods and security.
