

See: New BMW 3 Series launches in South Africa

The new edition of the BMW 3 Series is now on sale in South Africa, with a refreshed look and noticeable advancements in digitisation, control/operation and equipment.

All new BMW 3 Series engines come standard with an eight-speed Steptronic gearbox. The conventional shifting paddles on the steering wheel contribute to the car's athleticism.

Skyscraper grey metallic and M Brooklyn grey metallic have been added to the exterior colour palette as part of the M Sport package. Also new to the lineup are the BMW individual frozen pure grey metallic and frozen tanzanite blue metallic premium paint treatments.
