

Suzuki Swift gets a facelift and extended features

The Suzuki Swift range has been given a new facelift and its features updated.

The entry-level GA models now have full-size wheel covers, electric windows, air conditioning, central locking, as well as rear parking sensors as standard. The GL has the same features but is further fitted with fog lamps, an audio system with USB and aux inputs and electronically adjustable mirrors among other features. The GLX too has the same features and in addition has a reverse camera, climate control, keyless entry with a start/stop button, a touchscreen infotainment system that supports Android Auto and Apple CarPlay, and 15-inch alloy wheels.

Suzuki has upgraded the safety and security features. Every purchase includes a five-year/200,000km promotional warranty and a two-year/30,000km service plan. The new Suzuki Swift range retails from R180,900 to R234,900.
