

See: Volvo introduces XC40 T4 model to SA market

Volvo Car South Africa has introduced the Volvo XC40 T4 to the South African market following success overseas. The model features a 2.0-litre in-line turbocharged petrol engine that delivers maximum power of 140kW at 5,000 r/min and maximum torque of 300Nm. The vehicle, like the other Volvo models in the range, also has bold design with latest connectivity technology, clever interior storage and Volvo's safety technology. See the gallery below:

Orders for the XC40 T4 start in May 2021, with deliveries set to commence in August 2021.
