

New Land Rover Discovery in South Africa

Land Rover has announced that the new Discovery model is now available in South Africa. The SUV features an improved interior and exterior and is now smarter and better connected with cutting-edge technologies. The exterior features new LED headlights and tail lights with fresh front and rear bumpers, while the interior notably features redesigned second-row seats for improved comfort and an intelligent seat fold technology that enables customers to configure the seating layout using the central touchscreen. The new Discovery also has a Pivi Pro infotainment system that features a large 11.4-inch HD touchscreen and advanced connectivity with software-over-the-air updates and a new cabin air ionisation with PM2.5 air filtration to monitor air quality inside and filter harmful particulates for improved wellbeing. See the gallery below:

Additionally, the SUV features two new 3.0-litre straight-six ingenium engines, both petrol and diesel, and offers outputs of 265kW and 500Nm, and provides a 0 - 100km/h in time of 6.7 seconds.

The new Discovery is now available in South Africa from R1,452,700.
